

Template Specs

Outer Edge 4.725

Inner Edge 1.475

Bleed ———

Cut Line ———

Safety ———

Safety Area
Make sure any text or sensitive information is contained within this area, otherwise it could get cut off.

Cut Line
This is where we aim to cut.

Bleed Area
The bleed area is there to avoid any unwanted strips on the edge of your cards when cut. For this to work please make sure your background design, images or colours fully fill this area.

Template is for sizing only. Please make sure you do not knock out the center area of the background.
